## Description of Service

---

### LONGER TERM VISION FOR SERVICE DELIVERY

Service users and improving satisfaction levels with the Council will be at the focus with the overriding aim being to provide services that are recognised by customers as being first class. We will focus on eliminating waste from service delivery processes and improve customer experiences of doing business with the Council. We want to build quality into the way we design service so that they always work 'right first time every time'. We want to encourage people to choose self serve options as their preferred way of contacting the Council to request a service. This will require a first class web site. It will also require improvements to systems, specifically the CRM to avoid dual keying of information.

We will focus on assisted access, using customer services advisors, on the most vulnerable people in our community and also aim to join up services for those vulnerable people to assist early intervention initiatives.

We will continue to build our knowledge of the community through the use of customer insight information to ensure that our services are designed to be more personalised and better meet the needs of different groups of people.

We will build up on the work already undertaken to embed more flexible and efficient ways of working for our staff.

### Customer Services

#### *Vision*

*"Work together to improve the customer experience in terms of speed, accuracy and comprehensiveness of response, based on a range of customer intelligence, for those seeking information on or requesting service provided by public organisations in Leicestershire in a way that reflects local needs resulting in positive customer satisfaction and confidence in public services and provide value for money and cashable savings"*

Linking into the vision are 5 core values and 12 principles of high quality customer service. The aim of the next 12 months is to be working towards achieving these. The strategy is attached for reference.

## Risk Management

Corporate Risks are managed through the corporate risk register, however, service risk are identified within respective service plans.

Risks have always been dealt with and risk management is not a new responsibility but simply the formalisation of what is good working practices. A number of key risks for the Service have been identified that could affect the Council's ability to achieve its objectives, perform its duties or meet the expectations of its stakeholders.

These risks capture those previously managed through the Council's Risk management Team and include those identified in the Priority Action Plans.

The table below sets out the key risks.

## Performance Management

---

In order to be able to measure the progress that is being made in providing better quality services and real value for money a number of performance indicators have been established and targets set for the service:

The Service has included a number of performance Indicators that will inform how well the service is performing. (Please see inserts).

### Contextual indicators

Contextual indicators describe the background against which the service is delivered.

*List those indicators that provide the baseline situation, and are those which the service is intended to assist – i.e. number of unemployed, homeless, houses required, council tax raised etc*

### Output indicators

Output indicators assess the performance of the service.

*List those indicators that provide information on what the service has delivered and how well it has performed – i.e. number of people housed, application processing stats, income secured etc*

### Elections

Electoral Commission Performance Standards for Returning Officers – These standards were reissued in December 2012 and will be used to monitor any major elections.

### Electoral Registration

Electoral Commission Performance Standards for Electoral Registration Officer – There are 10 Standards and presently we are above Standard on 6 of them and meeting the Standard on the other 4. These are monitored on an annual basis.

### Customer Services

To improve service to customers by getting things right first time and providing more services on line thus reducing call volume by 5%.

To acknowledge corporate emails within one working day of receipt and to reply within 2 working days.

To process benefit claims within 48 working hours **on receipt of all the relevant documentation.**

To deal with 80% of all customer queries at the first point of contact.

### Human Resources

#### 1. Staff Turnover

Previous years

2011/12	2010/11	2009/10	2008/9
