

Fairmead Neighbourhood Profile

Indices of Multiple Deprivation

The indices of multiple deprivation are a comprehensive and up to date way of measuring relative deprivation, combining different aspects of deprivation including income, employment, health and education into a single deprivation score. The deprivation score for Melton Sysonby South in 2004 was relatively high (20.35) and ranked second most deprived Super Output Area in the Borough. The score given for the area in the most recent 2010 Index of Multiple Deprivation has increased to 26.34, and consequently illustrates that deprivation in Melton Sysonby South has increased over the 6 years, with the national rank of the area increasing to reflect this in accordance.

Deprivation Score		IMD, where 1 is the most deprived
Melton Sysonby South	Score	National Rank
2004	20.35	13607
2007	21.7	12659
2010	26.34	9964
