

**FULL COUNCIL****16 DECEMBER 2014****REPORT OF HEAD OF CENTRAL SERVICES****MID YEAR REPORT ON THE TREASURY MANAGEMENT ACTIVITIES AND PRUDENTIAL INDICATORS 2014-15****1.0 PURPOSE OF REPORT**

- 1.1 Revisions to the regulatory framework of Treasury Management during 2009 introduced a requirement that the Council receive a mid year treasury review in addition to the annual report and strategy on treasury management. The CIPFA Treasury Management Panel promotes the view that Council's monitor performance at least half yearly. In addition to this, a report by the Audit Commission entitled 'Risk and Return' identifies the need for Local Authorities to report regular to members in addition to the annual review
- 1.2 The report meets the above requirement and incorporates the needs of the Prudential Code to ensure adequate monitoring of capital expenditure and the Councils prudential indicators (PI's). The treasury strategy and PI's were previously reported to Council on 5 February 2014. Revisions to future years are provided where required.

**2.0 RECOMMENDATIONS**

- 2.1 **The Budget and Strategic Planning Working Group recommends to the Council that:**
- a) **The mid year position on treasury activity for 2014-15 be noted;**
  - b) **The mid year position on prudential indicators be noted and approved.**
  - c) **Reference to the changes to the investment counterparty criteria selection in the Treasury Management Strategy Statement be approved.**

**3.0 KEY ISSUES**

- 3.1 The Treasury Management & Prudential Indicators mid-year report for 2014-15 is attached at Appendix A
- 3.2 The underlying purpose of the report supports the objective in the revised CIPFA Code of Practice on Treasury Management and the Department for Communities & Local Government (DCLG) Investment Guidance/Investment regulations. These state that Members receive and adequately scrutinise the treasury management services.
- 3.3 The underlying economic environment remains difficult for the Council, foremost being the improving, but still challenging, concerns over investment counterparty risk. This background encourages the Council to continue maintaining investments relatively short term (ie less than one year) and with high quality counterparties. The downside of such a policy is that investment returns remain low.
- 3.4 The report shows that the basis of the treasury management strategy, the investment strategy and the PI's have not materially changed, except where shown.
- 3.5 The report is structured to highlight the key changes to the Councils capital activity (the prudential indicators), the economic outlook and the actual and proposed treasury management activity (borrowing and investment).
- 3.6 The report shows that all treasury benchmarks have, at 30 September 2014, been maintained within the prescribed limits.

3.7 The main rating agencies have through much of the financial crisis provided some institutions with a ratings uplift due to implied levels of sovereign support. More recently the agencies have indicated they may remove these uplifts which may commence during this year. The timing of the changes is still to be decided, but this means immediate changes to the credit methodology are required. As a result of these rating changes the credit methodology will focus solely on the short and long term ratings of an institution as outlined in Section 6 of the appendix on investment Portfolios.
