1. Overview of policy/function being assessed

A. Outline: What is the purpose of this policy? (specify aims and objectives)

The principle behind the Local Authority Mortgage Scheme is to make home ownership more accessible to first time buyers and to help the local housing market and thereby the local economy. The scheme will also meet the housing needs of households who would otherwise be in need of affordable housing.

The scheme requires the Local Authority to provide a financial indemnity of up to 20% of a mortgage for potential home-buyers who qualify for local authority support and, who meet the strict lending criteria set by the lender. The potential buyer will herby obtain a 95% mortgage on similar terms as a 75% mortgage, but without the need to provide the substantial deposit usually required.

Our current housing need model estimates that approximately half of new forming households, under 35 years, who could afford to buy market housing are unable to do so because they are unable to get a mortgage in the current economic conditions. This equates to approximately 60 households each year, because such households are unable to access market housing without assistance, they form part of the overall need for affordable housing, accounting for just over 20% of total need.

B. What specific groups is the policy designed to affect/impact?

- Any member of the local community who may require affordable housing now or in the future, including people moving to the Borough or looking to stay within the Borough (e.g. emerging households)
- Those on the housing register
- Partner organisations whose client groups may require access to affordable housing, including Probation, Adult Social Care and the third sector.

C. Which groups have been consulted as part of the creation or review of the policy?

- Consultation on the scheme has taken place with the Council's Management Team.
- The budget and strategic Planning working Group will be consulted on amendments to the treasury management arrangements prior to Full Council being requested to approve as the responsible scrutiny body for this function.

2. What we already know and where there are gaps

- A. What existing information/data do you have/monitor about different diverse groups in relation to this policy? This could consist of previous EIA's, reports, consultation, surveys, demographic profiles etc.
 - The housing register. Full equalities monitoring data (recorded under section 2 Equal Opportunities) of the housing application form. This data is then accessible through the Abritas database used to manage and report on the housing register. This data can be extensively cross referenced by specific household details and housing need information to profile equalities information.
 - Leicestershire County Council Local Authority Mortgage Scheme Cabinet Report 23rd July 2012.
 - Outcomes of consultation exercises as described in 1c above.
- B. What does this information/data tell you about diverse groups? If you do not hold or have access to any data/information on certain/all diverse groups, what do you need to begin collating/monitoring? (please list)

The profile of the housing register is similar to that of the Borough as a whole and does not identify any specific concerns.

The housing register can help to identify potentially suitable households for the LAMS scheme.

3. Do we need to seek the views of others and if so, who?

- A. In light of the answers you have given in question 2, do you need to consult with specific groups? If not please explain why.
 - The local community, particularly those with an interest in affordable housing, including those on our housing register
 - All registered providers of affordable housing within the Borough as well as the Homes and Communities Agency
 - Other partner organisations, including those whose clients are likely to require access to affordable housing, including adult social care, children's services, probation, the youth offending team and the third sector.
 - In addition the scheme has been consulted with management team

Other socially excluded groups				An individual will be assessed for the scheme on their financial circumstances,

				regardless.
All	The LAMS scheme will open up home ownership to first time buyers by reducing the requirement for extensive deposit, however, an individual's financial circumstances are still appropriately considered, to ensure the mortgage is affordable.	Existing homeowners could be excluded by the scheme; however the purpose behind the scheme is to also encourage movement within the housing market, which would be an improvement for existing homeowners who are for example, looking to sell.	No	No comments
