## **Summary of initial considerations for UK Shared Prosperity Fund (UKSPF)**

### **Investment Plan: Melton Borough Council – Version 1.3**

#### **Background**

The UKSPF is a national funding scheme. It was launched in April 2022 to support the Government's Levelling Up agenda.

Melton Borough Council has received an allocation of just over £1.19m. It is not a competitive process, but receipt of funds is subject to submission of a 3-year investment plan. The Council is working to a tight deadline for developing a UKSPF Investment Plan by 1<sup>st</sup> August. The investment plan will cover the period 2022/2023 to 2024/2025.

The funding can be used for a mix of capital and revenue projects. Projects (sometimes described as interventions) need to align with the investment priorities identified by Government under three broad themes:

- Community and Place
- Supporting Local Business; and
- People and Skills

The Investment Plan needs to be evidence led and it should be linked to national and local strategies and policies. Meaningful engagement with stakeholders is required and opportunities for collaboration with other districts are encouraged.

An evidence base document has been created, and two workshops have taken place:

- Workshop with elected members (31<sup>st</sup> May)
- Workshop with stakeholders (1<sup>st</sup> June)

The inputs and views from members and stakeholders have been considered by Cabinet and a draft UKSPF Investment Plan is now being developed. The draft plan is due to be considered by Scrutiny Committee on 27<sup>th</sup> June.

Following further development, the plan will be considered (along with consideration of comments from the Scrutiny Committee) by Cabinet on 13<sup>th</sup> July prior to finalisation and submission before 1<sup>st</sup> August deadline.

The Council will need to consider how it maximises impact and outcomes through the available funding. It won't be possible to do everything, and so a process of prioritisation will be required.

#### **Funding Available**

£1.19m to be spent by March 2025:

£145k in 2022/23, £290k in 2023/24 and £758k in 2024/25

Mostly revenue, minimum capital requirement of 10% initially, rising to 20% in year 3.

### Key themes within the plan:

- **Youth:** There is a need to support and retain both young people and young businesses to survive and prosper
- **Accessibility and Visibility:** Some things are already available or being done but there is a lack of access or knowledge about what they are doing.
- **Sustainability:** This is a 3-year funding programme. We need to ensure we avoid a 'cliff-edge' at the end of year 3 by thinking about sustainability and longer-term impacts from the outset.
- **Geographical spread:** Supporting the whole borough, rural and town.
- **Rurality:** enhance our rural character and recognise both the opportunities and challenges it creates.
- **Collaboration:** Melton has strong relationships with partners and stakeholders. These should be used to maximise impact. Melton's plan will include a blend of interventions – some of these will focus solely on Melton, and some will address common challenges across a larger geographic area working with neighbouring districts and the County Council.
- **Monitoring:** Maintaining oversight and grip on delivering the plan is key. Melton will make a case for going beyond the 4% allocation but will explore a collaborative approach with neighbouring districts which increase value for money.

## **THEME 1: Community and Place**

### **UKSPF Theme objectives:**

- To strengthen our social fabric, fostering a sense of local pride and belonging through investment in activities that enhance physical, cultural and social time and access to amenities
- Building resilient, healthy and safe neighbourhoods, through investment in quality places that people want to live work play and learn in through targeted improvements to the built and natural environment and innovative approaches to crime prevention

### **Issues discussed (evidence-base and qualitative impacts)**

- Ageing population
- Reduction in young people
- Service access deprivation due to rurality
- Decline in tourism and visitor economy
- Poor broadband coverage
- Environmental and gateway improvements
- Perception of crime, though actual rates not high
- Increased costs of living
- Enabling communities

Fear of crime during the evening	Corporate Strategy Priority 6	Support VCS community transport scheme	Melton Learning Hub (Voluntary Action Melton)  Rutland CC / Leics CC				Whilst need exists, transport is an LCC function. Potential to support additional investment in demand responsive transport within Melton within LUF bid with Rutland.

## **THEME 2: Supporting Local Business**

### **UKSPF Theme Objectives:**

- Creating jobs and boosting community cohesion through investments that build in existing industries and institutions, ranging from support for start ups to improvement to retail and leisure facilities
- Promoting networking and collaboration through bringing businesses together to share knowledge and expertise
- Increasing private sector investment in growth-enhancing activities, through targeted support for small and medium-sized businesses to grow exports, adopt energy efficient or productivity enhancing measures

### **Issues discussed (evidence-base and qualitative impacts)**

- Productivity below national average but gap is closing
- High business death rates
- Diminishing employment base / workforce – low population growth and declining young people – recruitment more difficult.
- Attracting and retaining young people, families and talent
- Need to support innovation-led growth in key sectors

					Year 1	Year 2	Year 3	
Decline in economic activity.		Priority 3	<b>Inward Investment – business grants and business rates relief proposition</b>	Place Marketing Organisation				Would not represent VFM at this stage and greater benefits by east Leicestershire focus

### **THEME 3: People and Skills**

#### **UKSPF Theme objectives:**

- Boosting core skills and support adults to progress in work, by targeting adults with no or low level qualifications and skills in maths, and upskill the working population
- Reducing levels of economic inactivity through investment in bespoke intensive life and employment support tailored to local need.
- Supporting people furthest from the labour market to overcome barriers to work by providing cohesive, locally tailored support including access to basic skills.
- Supporting local areas to fund gaps in local skills provision to support people to progress in work, and supplement local adult skills provision

#### **Issues discussed (evidence-base and qualitative impacts)**

- Declining levels of economic activity/employment – 5% below national average
- Lower proportion of employment in high skilled (higher pay) occupations)
- Earnings below national average and declining
- Low skills, low wage economy
- Low social mobility – vulnerabilities and risk of social exclusion

#### **NB:**

- *requirement to sustain existing ESF schemes that would otherwise cease in year 1 and 2*
- *LCC administering Multiply Scheme (£2.9m) to support adult learning – need to cross reference to ensure not duplicating*

Due to the requirements to only fund existing ESF projects for the first 2 years, the table below reflects those ESF schemes that officers consider could be beneficial to explore continued funding of or repurposed funding of. This is subject to the provider being willing and able to provide this and the required funding representing value for money. Discussions continue with these providers, and future versions of the investment plan will include this clarity.

If partners are unable or unwilling to extend provision in Melton, we will need to consider whether to establish provision locally, however due to the restrictions under this theme, these could not be funded within the first 2 years and would potentially be more expensive due to initial set up costs.

### Options considered but not included at this stage:

Further information is currently being sought on the following schemes to ascertain whether there is an opportunity to increase access and visibility within Melton:

<b>Scheme</b>	<b>Provider</b>	<b>Comment</b>
Community Grants – initiatives to move people into the labour market	Future	No prior engagement though could be of interest if grant was ring fenced to Melton?
Support for ex-offenders in the community	Shaw Trust	Operates from Samworths Centre, one afternoon per week. No local engagement or interaction.
Work. Live. Leicestershire (support for people in rural areas)	Vista	Already delivered locally in Melton through Access All Areas working with Work Live Leicestershire. Should continue but unclear on funding mechanism currently.
Work and Skills Leicestershire (non ESF)	Leicestershire Adult Learning Service	Already work together and awaiting updated proposal from LCC regarding ensuring additionality as per UKSPF criteria.

The following ESF Funded schemes are not currently proposed to be funded by Melton's allocation of the UKSPF but this will continue to be kept under review, particularly as discussions with partners continue

<b>Scheme</b>	<b>Provider</b>	<b>Comment</b>
Brighter Futures – community-led employment service to support inclusion	Business 2 Business UK Ltd	Focused in the City and no practical mechanism to extend to Melton at this time
Skills support for the unemployed	Twin Training	No previous engagement or presence in Melton. Alternative local provision already available through Access All Areas
Skills support for redundancy	Serco	Local awareness but no direction connection currently

Skills for Workforce	Serco	Helping small and medium sized businesses with skills to help them grow. No direct access currently
YES: Youth Employment Support	Voluntary Action Leicestershire	Based in the City and therefore access remains an issue. Already have local provision through Access All Areas
GREAT: Getting Read for Employment and Training (family support)	Voluntary Action Leicestershire	Pre-existing referral mechanism from Great to Access All Areas.
Moneywise Plus – Digital and Financial inclusion	Reaching People	No local awareness or contact and have similar provision through the District Money advice Centre.

## Summary

The draft investment plan will be subject to continuing review and development prior to submission.

Costs included at this stage remain indicative and will continue to be refined. Further work is also required on phasing between years and the capital and revenue split. The current summary is below, though this does not include a number of potential projects, particularly those funded by ESF where further information is required. It is recognised the funding requested doesn't match the current phasing but this will be refined further following engagement with Cabinet, Scrutiny and the Stakeholder Advisory Board.

	Indicative spend		
	2022/23	2023/24	2024/25
<b>Community and Place</b>	£168k	£251k	£246k
<b>Supporting Local Business</b>	£25k	£205k	£200k
<b>People and Skills</b>	TBC	TBC	TBC
<b>Allocation</b>	£145k	£289k	£758k

Monitoring resources will also be clarified and need to be added to this total. Where appropriate partners engaged in particular activities have been referenced but procurement and commissioning requirements will also need to be considered.

There are a number of areas where sustainability questions beyond year 3 remain and where additional resources are funded, redundancy or other exit costs will also need to be considered. This too will be included within future iterations.
