Councillor Graham seconded the motion.</p> <p>During the debate, the following points were made:</p> <ul style="list-style-type: none"> • A Member expressed concern with the amount of borrowing the Council is proposing to make. Although it was noted that the Council hopes to sell an asset in order to fund the match funding element of the bid. • As the funding is for the Stockyard, concern was expressed that the town centre would get left behind unless the venue and the town centre are linked. However, it was explained that the UKSPF funding would go towards invigorating the town centre and investment in the cattle market would benefit the town too. • Following the comment that the Borough needs promoting more effectively, Members were informed that some of the fund will be allocated for promotion and advertisement. • It was recognised that the reason the Stockyard has been successful is that

it has recognised the market is evolving and has adapted to meet the new demand.

- Members were reminded that the Council can use the funding on assets it has control over, such as the cattle market.
