He expressed surprise that the figure was relatively small since the Council made the decision in 2017/18 that Parish Councils would be required to meet the cost of their by elections. This decision had not been well received by a number of parish councils. He also pointed out that Bottesford Parish Council had reduced its precept;

(c) referred to the other major precepting authorities whose figures represented an average increase for the whole area of 4.7%.

The Deputy Leader seconded the motion and referred to his own parish council of Twyford and Thorpe whose precept had increased by 6.6%. This was in the main required for the conversion to energy saving street lights. The parish council was working in partnership with the County Council on this project. He also spoke on the continuing value for money offered by the Council in terms of the services it offered to its residents.

A member drew attention to an error in the paper on page 31 para 5.3 which stated the Leicestershire County Council increase included a figure of 3% social care levy. The correct figure for the levy was 1%. Another member commented on the small increase in the parish councils' levy and presumed this was indicative of the fact that they were carrying forward a health reserve. The Mayor commented on the adverse reaction she had experienced in her ward in relation to the increased Police precept. Views had been expressed to her that there was no visible police presence in that part of the Borough. The Leader responded to the Mayor's point by explaining that in setting the precept the Leicestershire Police had followed Government guidance. He assured members that a lot of police work was going on in the Borough tackling on line crime for example; the policing was there but was not always visible.

In accordance with Procedure Rule 15.5(b), a recorded vote was then taken:
