FW: Objection to Noisily Festival premises licence application

Dear Sarah

Following discussions with the applicant Will Hazlerigg regarding my representation below, he has confirmed that they are happy for the following to be added as conditions to the licence:-

- i) The event organisers for this and any future events will engage with the safety advisory group at least 6 months before the planned event/s and implement the requirements that the safety advisory group members identify for the safe running of the event.
- ii) The completed final event safety management plan to be submitted to the safety Advisory Group members at least 2 weeks before the event.

If the above two conditions can be added to the licence then I am happy to withdraw my representation.

Any queries please get back to me.

Regards

Jo
