Enquiry type	Other
Details of your enquiry. (Please provide us with as much information as possible. The more information you include at this point means we can deal with your enquiry as efficiently and effectively as possible)	Noise nuisance - the white lion in melton Mowbray last summer played extremely loud outdoor music every Saturday night until midnight, the venue told me they have a licence for this but it seems extremely unreasonable that from now until the end of the summer I cannot go to bed before midnight due to the noise and the thudding of the music in my bedroom, which can also be heard over my own tv. I feel I cannot relax in the evenings and I get anxiety regarding the loud music and being unable to enjoy my own home in the evenings at the weekend. I understand living within the town comes with its issues, but I believed loud music was not permitted after 11pm, just because I live in down I do not feel the rules should be different, people still have to work and get up early on weekends due to work, it is extremely unfair.
