- Consideration should be given to whether there would be sufficient car parking for visitors.
- Appearance, including proposed trees and landscaping were adequate.

Councillor Beaken advised that she had received a telephone call from a resident, objecting to the application due to concerns about anti-social behaviour, parking and extra traffic.

## **Committee Comments**

A discussion was held, concerning the planning application and Members made the following comments:-

• What were the proposed licensing hours (opening /closing times). There would need to be strict observance of times suitable for a residential area (no later than 10pm suggested).

- There were currently two bins in the area but would this be sufficient to avoid litter problems? Adequate provision of litter bins would be required.
- Assurance that odours and noise would be managed proactively was needed. There were two flats above the One Stop Shop. A suitable extractor fan would be necessary, giving particular consideration to these residents.
- Would there be adequate parking in the vicinity? What impact would additional parking requirements have on residents.
- The chimney should not be reflective.
- The hot food take away may meet a need in the local area.
- It would neaten the row/vacant plot.
