

Clawson, Hose & Harby Parish Council thanks Melton Borough Council for the opportunity to comment on the new regulations with regard to Hackney Carriage and Private Hire Vehicles, and makes the following comments:

Item 8. Page 18 Executive Vehicle Standards. Quotes EU commission definition. An eye needs to be kept on this when we exit the EU.

Item 24. Page 22. Meters and Fares. It understands there is only one approved agent, in Nottingham, which is recommended by the Council. The Parish Council considers there should be at least two to give a choice both for the Council and the Operator. It also understands that there are two suitable agents in Nottingham. To have more than one quotation or business should always be considered.

The Parish Council is pleased there is to be such a document but consider this is very wordy and would benefit from being of a shorter length.
