

9 November 2017

## Appendix 1

**Verbatim transcript of Councillor Wyatt's comments on 09-11-2017 aimed at the residents of Long Clawson; made at petition meeting on Thursday 9th November 2017.**

**Transcribed from the original recording:-**

"Yeah, what amazes me about this is all we've heard in the last few weeks is about bullying and, hm, everything else that goes with it people trying to force people to do this, that and the other and this is what this is, to me, **it's just somebody trying to throw their weight around and say you don't know what you're doing, you're causing damage and all this and that.** I don't agree with that at, I think we're very fair and we give everything a real fair crack of the whip and everything and try and get everything correct and for these to say we don't get it right is, and, we know, we know what we do, we know the evidence, we read it, we look at it, we study it, we live it here, and yet they, these people **never come to see what we do,** or how we do things ar, are criticising us and, erm, **I've got no time for them** actually and I think all they're doing is just **whipping up a storm which will come back and bite them, hopefully**".
